# Ribbon & Accessories for Bow Machines

S72 & S81 Star Bow Machines

S-13 Pom Bow Machine

Our Flora-Satin and Sparkalene ribbon are the perfect width for the bow machines and therefore you can be free of star bows with flipped loops. Our ribbons are embossed which helps the machine grip and pull the ribbon properly. The cores are made to fit the machines so no adapters are needed. These ribbons can also be used on the S-13 pom bow machine, however if you prefer more fabric feel and an easier pull when opening, try the satin acetate below.

## Bow Pins & Cards

## General Information for Post-Printing

- Standard Lead Times:** We strive year round to provide a ten business day lead time. Lead times are subject to fluctuations in machine capacity and product availability. The total quantity of impressions will also effect lead times, please add additional time for more than 5,000 total impressions. For example: the total number of impressions on a 2 color logo printed on 2 sides is 4 impressions per bag.
- Approvals:** Signed sales order acknowledgements & proof approvals must both be received before lead-time can begin. If received by 9 am CST, it counts as day one. Please carefully check all details on both the art/placement proof as well as the acknowledgment since a signature confirms the accuracy of all information and is an agreement to all charges stated.
- Quantity Pricing:** Post-printing allows us to combine multiple sizes of the same style of product to accumulate toward the per thousand cost, provided one common plate & foil/ink are used. Specifically when Hot Stamping, changing the plate or foil using a \$20 change fee is a good way to obtain quantity pricing. Change fees cannot be used in screen, flexo printing or second side printing. When printing each side with different artwork, use pricing for 1 sided pricing x 2, as the job requires two set ups and may run on different machines.
- Rush Orders:** A 25% upcharge of the printing price (minimum of \$50) will be applied to any order requesting a quicker ship date than current lead time allows. Additional charges to air freight new plates may be required. Rush charges are subject to changes due to production schedule and time of year. In the 1st & 2nd quarters of the year, quicker lead times may be available with no additional upcharges; call customer service to inquire.
- Artwork:** We can accept pdf, ai, or eps files. Artwork must be vector and outlined. Jpeg artwork will not provide quality printing in one color printing, and cannot be used for multiple colors. Changes made to supplied artwork will be billed at \$60 per hour with \$15 minimum charge. We can print up to 45 line screen in Flexo and up to 100 line screen in Screen Printing. In Hot Stamping half tones (screened effect) do not appear the way they do in ink. Instead a half tone adds texture to the solid foil impression.
- Proofs:** Up to 2 proofs (per size) are included with each order. Additional proofs will incur a \$15 charge per proof. Please check all details on proofs carefully as electronic artwork does not always transfer consistently and minor changes can occur.
- Registration:** Screen Printing tolerance is 1/16" shift in any direction between colors  
Hot Stamping is 1/8" and Flexo Printing is 1/2" in any direction with no critical alignment.  
Process Printing, by nature, registers multiple colors in critical alignment.
- Coverage:** Hot Stamping & Flexo Printing cannot tolerate heavy ink coverages therefore we recommend screen printing for those applications.
- Merchandise & SOS Bags:** Merchandise and SOS bags are Hot Stamped flat when printing one side which creates a ghost impression on the back of the bag. To avoid this, the bags can be inserted; a \$50 fee applies per 1000.
- Restrictions:** In Flexo Printing, a \$50 insert fee per 1,000 impressions applies to any bag with an overall length measuring less than 11".

### Easily identify the printing method.

Follow this coding system to identify the printing method available for the products listed in this catalog. SS = Screen Printing, HS = Hot Stamp, FL = Flexo Printing. This will be located in the far right side of the header line. The letters will appear where that method of printing is available for that item.

# Flexo Printing

A rotary system using water based ink and a flexible plate which is mounted directly onto the printing cylinder. The plate is kept on file for future use. It is our fastest post-printing process and quite economical. Product options are limited to paper finishes for ink absorption. Product with handles must be fixed like that of a twisted paper handled shopping bag. Bags with rope handles will not run on this type of printing machine. Single color prints are best suited to this process. When printing multiple colors, registration cannot be critical due to machine variances.

### Custom Ink Colors Available

Initial Order: \$80-125 per color  
Repeat Order: \$15 per order

### Pricing per 1,000 pieces (or Minimum Charge if less than 1,000)

<b>Paper Boxes including Gift, Bakery &amp; Apparel</b>			
Per Color / Per Side	94	86	80

An insert is required for any product with a total height of less than 11" at \$50 per 1,000 pieces  
Ink color will vary due to absorption and texture of surface being printed.

### Size Changes are FREE!

Combine multiple sizes of the same style of product to accumulate toward the total quantity printed and use that number to determine print charges. This assumes the same plate and ink color are being used on the entire quantity. Same style refers to categories of like product such as Shopping Bags, Gift Boxes, Merchandise Bags, Gable Boxes, SOS Bags etc.

### Standard Ink Colors For Flexographic Printing

## Hot Stamping

This process uses a metal plate in combination with heat, pressure & duration to transfer the foil to the surface of the product, leaving the desired impression. The plate is kept on file for future use. Foil colors can be metallic, matte, or gloss. Each foil has a different backing to adhere to different substrates. Printing colors are limited to available foil from our suppliers. If a specific PMS color is desired, screen printing is the better option. This is the only method to obtain a true metallic image. Multiple color printing can be accomplished however foil should not overlap.

## Combine for Quantity Pricing

**Size Changes are FREE.** Combine multiple sizes of the same style of product to accumulate toward the Per Thousand printing cost, provided one common plate & foil are used. Same style refers to categories of product like Shopping Bags, Frosted Bags, Sophie Shoppers, Apparel Boxes, Gift Boxes, etc.

For Example:

An order for 500 Petite shopping bags and 500 Fashion shopping bags using the same 40 square inch plate would be charged a total of \$180 for 1 side printing.

If the order were for 1000 Petites and 500 Fashion, again using the same 40 sq inch plate, the print charges would be 1.5 x 180 = a total of 270.00.

### What if you want to use TWO different size plates?

Use the \$20 plate change fee to obtain quantity pricing.

For Example:

An order for 500 Petite and 500 Fashion shopping bags, using a 25 sq inch plate for the Petite and a larger 50 sq inch plate for the Fashion would be charged \$180 (the printing for the larger size) plus \$20 to change the plate. A total of \$200 for 1 side printing.

If the order were for 1000 Petites and 500 Fashion, again using two different plates, the print charges would be 1.5 x 180 + 20 = a total of 290.00.

Change fees cannot be used on second side printing. When printing each side with different artwork, use pricing for 1 sided pricing x 2, as the job requires two set ups and may run on different machines.

## Special Effects

# Screen Printing

In this method a screen is used instead of a plate. Ink is pushed through a fine mesh screen to transfer the desired image to the product. It is our most versatile process because of its gentle and precise nature. We can match any PMS ink color when printed on a white substrate. When ordering a colored substrate, please be aware that the background will effect the end result and change the color. Therefore, we suggest you request an ink draw down to assure the color meets your customer's expectations. Multiple colors can be accomplished on a wide variety of products. We use UV ink which creates a glossy finish. A matte additive can be requested to remove the gloss; or a metallic powder can be added to the ink to create a brushed metallic look. Screens must be made on every order, repeat or new as the screen is reclaimed and used again. The film used to make the screens is stored in the file to be used on future orders.

**Screen Charges for New Artwork = \$75 (per screen/per color).**  
**Repeat Orders (same artwork/size) screen charges waived.**

Brushed Metallics = \$10 upcharge per 1,000 impressions

# Choose Screen Printing When...

## Large Print Area

When your artwork covers a large area. Excessive foil needs raise cost. Screen printing is cost effective for these situations

## Screened Colors in the Artwork

Use varying percentages of ink to create a print that looks like multiple colors.

## Multiple Colors

Discounts for multiple colors. Sizes combine when using the same artwork.

## A Specific Color is Required

We mix our own ink which means you get the color you want!

## Heavy Ink Coverage

Large coverage in hot stamping means trapped air and broken foil. Screen printing is the solution.

## Tighter Registration Between Colors

Our tightest printing option at 1/16" shift between colors.

## Gloss or Matte Finish

Our ink is naturally glossy; get an upscale look without using foil. Add matte additive for a natural look.

## Larger Print Runs

Price breaks are given for longer runs.

## Change Color in Run

\$50 Ink wash charge provides the opportunity to change colors while on press.

## Sizes Combine for Quantity

No upcharge to combine multiples sizes. As long as they use the same screen, we'll set up the additional size for free!

**Chargeable Samples:** The “Samples Each” icon indicates products that will incur a sample charge. Chargeable samples are treated like an order. They ship in 24 hours, require a PO and will incur freight. Use the Each column for price. The product code for a chargeable sample is the standard product code with an “X” inserted after the dash. (ie. CM-994BLA is a CASE and PP-X994BLA is a SAMPLE.)

**Actual (Ship) Wt:** The number to appear first is the actual or physical weight of one selling unit. The number shown in parenthesis is the dimensional weight of the product, or the shipping weight if shipped by itself. (ie. BX-53WK 8 (14) has a physical weight of 8 lbs however when shipped via UPS or Fed Ex, ground or air, the shipping weight is dimensional at 14 lbs.)
